

Date: 10/28/2020 Posting

Note: Visitation Paused both campuses. Please note – per 10/13 Interim Guidance for Skilled Nursing Facilities During COVID-19 the prior “Steps” and “Visitation Plans” are replaced by CMS Guidance QSO-20-39-NH indicating that visitation opening is merely based on being 14 days without a defined resident or staff positive. The posted plans will be eliminated and information regarding reopening dates will continue to be posted in this daily sheet and communicated by weekly social worker calls when the date is known. Thank you for your understanding as we continue to stay current with new regulations.

Cedarbrook Allentown (In-House + Hospital)

New Residents Positive Tests Since Last Update	0
3 or more clusters of residents/staff have had new respiratory symptoms within 72 hours of each other since last update	0
Total Employees with Positive Tests To Date	42
Visitation Reopening projection (pending no new cases)	

Cedarbrook is following the guidance and direction of federal, state and local agencies and public health officials. Cedarbrook continues to update procedures and practices with the evolving federal / state guidance that very understandably often changes as the nation continues to study and understand this novel virus. Cedarbrook will continue (among multiple other practices) performing the following mitigation strategies: operate under DOH visitation guidelines reflected in current posted plans, minimize cross-unit movement as much as operationally possible, continued suspension of normalized group dining per visitation guidelines, engage in only very small scale activities, utilize paper products for meals on Covid units, continue high touch surface cleaning/sanitizing in addition to regular cleaning, screen all upon entry to the facility, regularly confer with public health individuals and the new PA RRHCP onsite assistance, offer residents technology options for family contact, periodic education, postings, and updates for staff, and work vigorously for PPE and testing supplies in this unprecedented time period.
